

## Veri-ID : Retail Pack Verification

### Overview

Dimaco's Veri-ID system allows reliable verification of a product container and the associated lid. The system continuously verifies the matched pair, eliminating any mismatch, typically at changeover.

◆ Your partner in quality control

## >>> Veri-ID : Retail Pack Verification

### Verifies:

- ◆ Lid/tub mismatch
- ◆ Lid/pot mismatch
- ◆ Lid presence
- ◆ Missing over print

### The Benefits:

- ◆ Avoids pack mismatch
- ◆ Reduces re-work
- ◆ Reduces risk of EPW/product recalls

### Lid and container verification
